HSE Coordinator, Major Shutdowns  
MPH Transfield Services**

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Every height device known to man.

Thanks to Kelly Kasel

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Ingenious, but still un-genius.

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Higher and higher ...

Thanks to Steve Westerfield  
Safety/IT Process Engineer

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Just one more 50-gallon drum ...

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# This is so tempting... but still dumb.

Thanks to Eric A. Roth, P.E.  
STV Inc.

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

Yes, those are bales of hay—how they just need to stack more underneath.

Thanks to Matt O'Donnell

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Oh yeah, that's secure.

Thanks to Rhonda L. Henderson,  
ExxonMobil Chemical Company

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# At least he's wearing a hard hat.

---

**Thanks to Sandy Cosner  
Project Architect  
Buchanan Yonushewski Group, LLC**

---

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# What happens when someone has too many palates.

Thanks to Tom Grierson

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Talk about the bare minimum.

Thanks to Sergio González

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# We take it back - this is the bare minimum.

Thanks to Warren Long

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Wait – maybe this is the bare minimum.

Thanks to Dave Vriezen  
Section Chief, Public Sector Safety &  
Mines, Wisconsin

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Just a lit-t-t-tle more to the right

...

Thanks to Dave Vriezen  
Section Chief, Public Sector Safety &  
Mines, Wisconsin

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

# Let's just hope the keys aren't in the ignition.

Thanks to Denise Palmer  
Senior Injury Prevention Consultant  
Injury Prevention & Management Services

**Naval Safety Center**  
[www.safetycenter.navy.mil](http://www.safetycenter.navy.mil)

Last but not least in terms of hazards—in fact, it's probably first in that category.

Thanks to Paul McFall  
Tennessee Valley Authority,  
Watts Bar Nuclear Plant

**Naval Safety Center**
